Reviewed By/Date	

Background/Justification:

- Last year Wright County made the decision to not have the OSA convert our financial statements into their system, but rather we hired CLA to compile our statements for us, using their system that we used for the previous 9 years. This document represents another contract for this service. With Lindsey Meyer now joining my staff we hope to mitigate some of these expenses, and will likely not need this additional service in the future.

Previous Action On Request/Other Parties Advised:
