Christine Husom

We live on Maple lake and wanted to let you know that we are in full support of the Lake Improvement District. Unfortunately we are not able to attend the Oct 23 meeting to show our support. We will be out of the country. We have been on Maple Lake since 1980 and full time for the past 8 years. We love this lake and we need to do what we can to keep it a nice recreational lake. The LID is a way to continue to improve the lake quality which all people in this area benefit from.

We would appreciate your support of the Maple Lake LID.

**Subject:** Maple Lake's Lake Improvement District

Greetings Commissioners,

I am unable to attend this evenings meeting in person, but wanted to make sure you were aware of my thoughts regarding the Maple Lake LID formation request.

My support and the support of our council is fully behind the creation of the LID. There are many benefits to the formation of this district which will ultimately ensure a steady stream of funding to keep the high quality of our lake in tact.

The lake is of utmost importance to the vitality of our community as many community activities revolve around the lake, and many of our local businesses rely on the vibrancy of the lake and the great fishing, boating, swimming and other recreational activities that take place on and in it.

As you well know, we can no longer count on the intermittent availability of funds from our annual Ice Fishing Derby to pay for the necessary treatments and cleaning of the lake. The battle against invasive species must continue and the funds made available through the creation of the LID will help us fight that battle. Without the continued access to funding for ongoing treatment, cleaning and restocking I fear that the battle our Lake Association has fought so hard for so many years will be in vain and we will lose the quality of this great asset.

I trust you will do the right thing for Maple Lake and Wright County by approving this LID request.

Thank you,  
Lynn Kissock  
Mayor, City of Maple Lake

**Subject:** Maple Lake LID

Hello Commissioners,

I would like to voice my support for the proposed LID on Maple Lake.

As you know, we have a very active association on the lake. Most of the property owners around the lake, and the association consider themselves "stewards" of the lake and are interested in the quality of the lake. As good stewards, we want to guarantee that future generations have a quality lake to enjoy. I grew up on Maple Lake and continue to live on the lake. It's really home to me. I've tried to move away from the lake a couple of times over the years, but I'm kind of a sentimental person and this lake keeps drawing me back. Like I said, its home to me and all of my childhood memories are here. I have never actually lived more than a mile away from the lake in all of my 50 years. We have raised our kids, and now grandkids here.

The passage of the LID will ensure they can raise their families here someday as well.

As we know, the Ice Fishing Derby each Feb. really funds the activities on the lake with regard to water quality and stocking. With the past 2 very warm winters, we have not been able to hold that event. It is the belief of the property owners and the association that the LID can and will help with regard to the on going efforts to maintain the lake.

Thank You  
Troy LaTour  
1771 and 2820 Donnelly Dr NW

Christine

My Wife and I have been a home owners on Maple Lake for almost 15 years and have worked with the lake association with various events over the years to raise money to improve the lake quality. I am usually not in favor of a new tax. However, this is one would give Maple Lake a direct benefit and have some immediate results because of all the work that already has been done by so many volunteers.

We would appreciate your support as a commissioner  
Thank you for your support

Rob and Wendy Manthey

**Subject:** Maple Lake LID

I have recently learned of the upcoming meeting of the Wright County Commissioners regarding the proposed Maple Lake LID.

In the event I am unable to attend, I would like to express my support for this proposal, and encourage you to approve the LID formation.

I am a homeowner on the lake (20 years) and have seen the struggles to keep the lake free (or at least control) the invasive species, with the lake weeds becoming a real nuisance.

This year, for the first time in my 20 year history on the lake, there were two boating accidents on the lake.

While approval of the LID may not improve lake safety, the funds it would generate would surely help make the lake more user friendly, and help retain property values (and therefore the property tax base) for future summer boating seasons.

Again, I encourage you to approve the LID formation proposal being presented to the Board.

**Subject:** LID for Maple Lake

I am sending this message as a lake property owner for 30 years on Maple Lake.

This lake has seen many changes and especially growth over the 30 years as far as lake population and boats. Once a fishing lake and small pontoons. Now jet boats and large wake boats. Weekends bring more and more boating and with that a large threat to our water quality. We need help from you to get an LID in place.

As a home owner, we are more than happy to add to our tax to support continuation of our water quality. The value of our property depends on it!

Hi Christine.

My name is Kelly Pribyl. I live on Maple Lake in Wright County. I am writing to ask you to please help support the Lake Improvement District that we are working to put in place.

My husbands family has lived on this lake for over a century. I want our kids to be able to continue that tradition on a clean, healthy lake.

We truly love Maple Lake and need to be able to continue to care for it in the best way(s) possible. With the onslaught of invasive species that we are facing, it's imperative to be able to be proactive. Without the funds, that isn't possible.

Please support the Maple Lake LID in the upcoming Town Hall meeting and beyond.

Thank you!

Kelly Pribyl  
6640 Crofoot Ave NW  
Maple Lake MN

Good morning Christine,

I am reaching out to you in support of the MLPOA LID creation.

My name is Rob Pribyl, 41 and have lived on the lake my whole life along with many family members and friends.

This program is very important as it allows to help protect our lakes that we not only live on, but are all so proud of in MN. The health of the lake will also help maintain and increase property values for the 300 + properties on the lake. It's more than just for the property owners it's for everyone else who loves visiting and using the lake.

Thanks for your support!

Commissioner Husom,

My wife and I have owned on Maple Lake for 38 years and we are very much in favor of the proposed LID. In case you don't hear from them directly, we can also speak for my brothers, Ken and Jerry, and our son Dan who are also owners on Maple Lake. We believe the LID will provide a fair and consistent means of funding of projects to maintain our lake quality. When the time comes, we respectfully request that you vote in favor of the Maple Lake LID. Thank you for your consideration.

Don Schumacher
