

ACTION NEEDED!!

Attention Providers:

The 2009 Legislative session brought changes that effect family child care providers. Please refer to the complete list of changes effecting family child care on the Wright County website:

Effective August 1, 2009, anyone caring for children under school age is required to have completed Shaken Baby Syndrome training. If you do not have SBS training, you will need to complete the training as soon as possible, and **send in a copy of your certificate to your licensor.**

Each provider is required to have an emergency substitute. If your emergency substitute has already completed SBS training, please contact your licensor to verify that we have the training on file. If your substitute has not taken the training, they will need to complete the training as soon as possible, and **send in a copy of your certificate to your licensor.**

Below is a link to the next available SBS training in Wright County.

SBS training may also be taken on-line at www.educarer.org. You must purchase the certificate as verification of completion. The on-line class does not include the SBS video. If your substitute chooses to complete the training on-line, they must also view the SBS video.
